

A CALL TO MEN

National Association of Men
and Women Committed to
Ending Violence Against Women

OUR VISION:

To shift social norms defining
manhood in our culture.

OUR MISSION:

To galvanize a national movement
of men committed to ending all
forms of violence against women.

OUR PURPOSE:

To influence change in men's behavior
through a re-education and training
process that challenges sexism.

A CALL TO MEN believes that ending violence against women is primarily the responsibility of men. Historically it has been almost entirely women at the forefront addressing this subject; yet we think it is essential that men play a primary role in the solution to end it. To do that, well-meaning men...men who, for the most part, don't see themselves as part of the problem...need to get involved.

A CALL TO MEN is a leading national men's organization addressing violence against women and sexism, while maintaining strong alliances with women's organizations already doing this important work. As we earn the trust that women have extended us as their allies, we honor our stance that this is truly men's work.

By strategizing within colleges, corporations, grassroots and non-profit organizations, Faith communities, organized sports, U.S. military, law enforcement, government agencies and others across the United States, we help to organize communities in order to raise awareness and get men involved in ending men's violence against women. Our vision is to shift social norms that define manhood in our culture, and produce a national movement of men committed to ending violence against women.

Through education, training, community organizing and providing technical assistance, A CALL TO MEN challenges men to reconsider their long held beliefs about women, in an effort to create a more just society. *Please join us.*

ABOUT THE TRAINERS

Our training team of nationally and internationally recognized leaders, educate, engage and organize men in the effort to eradicate sexism and end men's violence against women. We provide presentations, training and technical assistance for groups or organizations interested in preventing all forms of violence against women and embracing gender equality. We serve community-based organizations, high schools, major universities, colleges, private agencies and corporations as well as the United Nations, U.S. Military, law enforcement agencies and professional athletics organizations. Our educators and activists have appeared in numerous media outlets including national newspaper, magazine, radio and television.
