

A CALL TO MEN

National Association of Men
and Women Committed to
Ending Violence Against Women

OUR VISION:

To shift social norms that define manhood in our culture.

OUR MISSION:

To galvanize a national movement of men committed to ending violence and discrimination against women and girls.

OUR PURPOSE:

To influence change in men's behavior through a re-education and training process that promotes healthy manhood.

A CALL TO MEN believes that preventing domestic and sexual violence is primarily the responsibility of men. Although historically it has been almost entirely women who have been at the forefront addressing this issue, we think it is essential that men play a primary role in the solution. To do that, well-meaning men...men who, for the most part don't see themselves as part of the problem...need to get involved.

A CALL TO MEN is a leading national men's organization addressing domestic and sexual violence prevention and the promotion of healthy manhood. We are committed to maintaining strong partnerships with women's organizations already doing this important work. We help to organize communities in order to raise awareness and get men involved in this effort.

By strategizing with groups across the United States and abroad, our vision is to shift social norms that define manhood in our culture, and produce a national movement of men dedicated to this cause. A CALL TO MEN is unique in its ability to be affirming and respectful to the experiences of women while expressing genuine care and hope for men.

Through education, training, community organizing and providing technical assistance, A CALL TO MEN challenges men to reconsider many of the social norms that define manhood, in an effort to create a more just society. *Please join us.*

ABOUT THE TRAINERS

Our training team of nationally and internationally recognized leaders, educate, engage and organize men in the effort to end violence and discrimination against women and girls. We provide presentations, training and technical assistance for groups or organizations interested in preventing all forms of violence against women and embracing gender equality. Some of the organizations we serve are; community-based organizations, high schools, major universities, colleges, private agencies and corporations as well as the United Nations, U.S. Military, law enforcement agencies and professional athletics organizations. Our educators and activists have appeared in numerous media outlets including national newspapers, magazines, radio and television.
